

Hello Friends,

I am writing to let you know that after a great deal of agonizing, we (the Fright Nights Planning Committee) have decided to cancel the planned Kiddie Fright Nights event that we had scheduled for October 21, 22 and 28 and 29 on City Island.

Everyone involved has been quite supportive of The Arc and wonderful to work with, but the recent flood came at a critical time that added too many uncertainties to our planning. We want everything associated with The Arc of Dauphin County to be remembered as "top notch," and we would rather cancel now than risk putting on less than a stellar production.

I hope this has not caused any inconvenience for you and that you will keep a bright spot in your heart for The Arc.

We are truly grateful for the interest you have shown in this event and your willingness to help with a great cause.

Sincerely,  
*Glen Dunbar*

Co-Chair  
The Arc's Fright Nights on City Island
